Welcome to EASTRIDGE!

We want to extend a warm welcome to all students and their families. We would like to take this opportunity provide a few successful back-to-school tips that will help your student/s get their school year off to a great start and inform you about the school health clinic!

BACK to SCHOOL Family Checklist

For All Families

- Confirm all required and recommended immunizations are up-to-date and be sure the school nurse has an updated copy
- Encourage and review good handwashing technique with your children
- Establish a consistent bedtime and wake up schedule to ensure adequate sleep
- For Kindergarten Students – keep a change of clothes in their backpack

Families of students with a Health Concern/Condition

- Inform school nurse of students health concern/condition
- If medication or treatments are needed during the school day:
 - Supply school nurse with a current Permission to Give Medication or Nursing Procedure form signed by the healthcare provider and guardian
 - Parent needs to bring the medication in its original container with the matching pharmacy label adhered.

What does the school nurse do? Here's a glimpse:

- Provide preventative, acute, urgent and emergency care
- Monitor, assess & provide necessary interventions for chronic health conditions per provider orders.
- Develop and implement Individualized Healthcare Plans.
- Administer medication per provider orders
- Maintain health records for all students
- Participates in the Safety & Special Education team, the 504 & IEP process and works to address and support all students academic success and health related concerns/conditions
- Train & delegate personnel to meet the needs of the students and staff
- Oversee hearing and vision screenings
- Assist families to locate health resources in their community

Please do not hesitate to contact us with any questions or concerns.

We are excited to work with you and your student/s here at EASTRIDGE Elementary during this 2017-2018 school year.
